Experience

Isystem IT Academy (2022 to present)

Python Mentor

In August 2022, Isystem IT Academy offered me a job as a Mentor and I started my first job in the IT field.

Astro IT Academy (2022-2024)

Python Mentor

From July 2023, I started working part-time on the Python backend at Astro Academy

Online Education (2023 to present)

Python Mentor

In 2023, I started teaching Python programming language online

Currently, I have taught Python programming language to more than 250 students in total.

Education

University (TATU 2021 to present)

KIF faculty

In 2021, I was accepted to study at TATU University on the basis of a payment contract

Isystem IT Academy (2022-2023)

Python backend

I started learning the Python programming language at the Isystem IT Academy, which was established in January 2022, and completed the course in July.

I learned it myself (2023 - 2023)

Telegram Bot

2023 I got interested in creating a Telegram Bot and started learning by myself and finished it in 2 months
